

# Project Updates

01/10/2019

# Migration

- Created script for date validations (pre-migration)
- Updated migration script for several changes regarding the tables structure
- Waiting for another UAT migration (2 or 3 more UAT migrations) before migrating the Oncology DB to the production server.
- UAT server is currently moved... need to wait for an access
- Target date: End Of November

P.s. One migration takes 5-10 hours

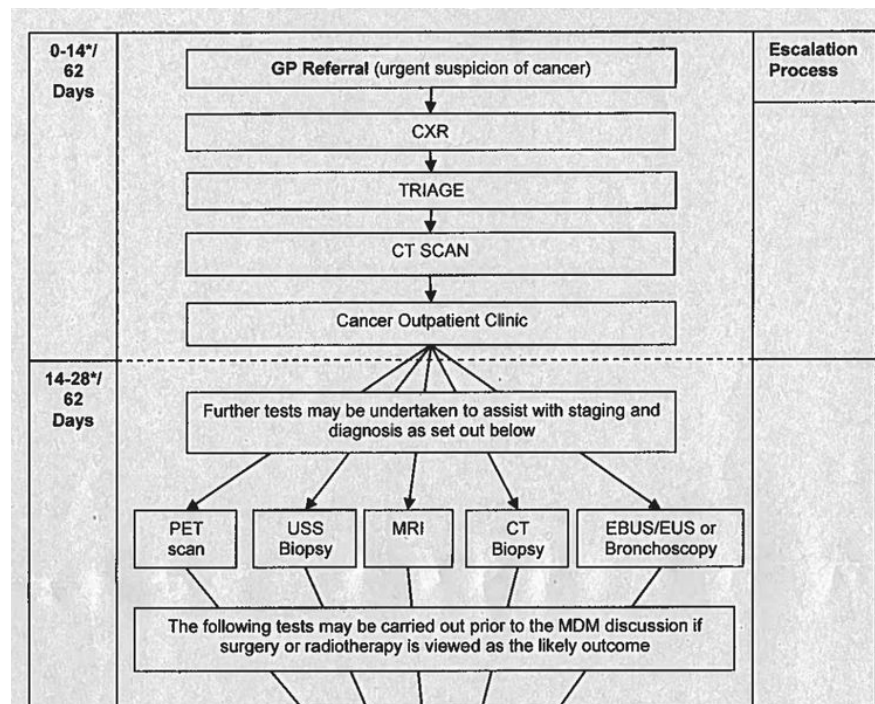

# Cancer Waiting Time

- Created the first version query to flag and observe the cancer waiting time.
